The Inventory

Information about your actual inventory sorted by shops are accessible via this tab.

As a result, the view updates and lists the article within your inventory for every shops.

You also can add an article if you click on “Approvisionner le stock”, a window will be opened and you’ll have to specify :

- The name of the shop
- The supplier
- The article’s name
- The category
- The quantity
- A commentary

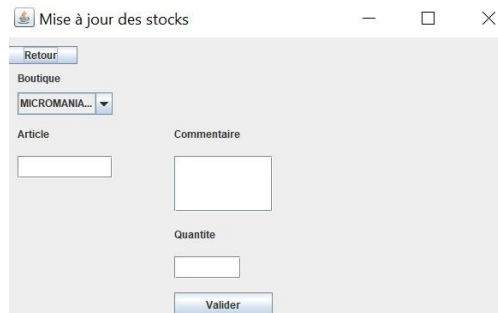

If you don't have a supplier, you can select "Proprio du magasin" if you are the shop's owner.

Then, you only have to click on the "ajouter un article" button.

You also can do the same action if you want to delete an article and by clicking on the "supprimer un article" button.

If you just want to change the quantity, you can click on the cell and change the number in the "stock" column.

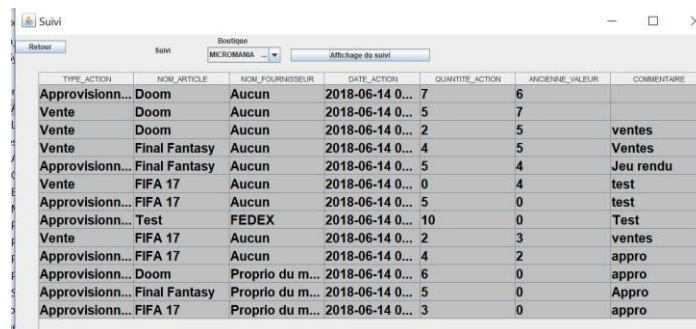

You can update the inventory if you click on "mise à jour des stocks" button.

You can update your inventory by completing :

- The name of the shop
- The name of the article
- A commentary
- The quantity

Every actions in this tool are saved and you can check them on "Suivi des activités".

You can check every actions which was done in your shop, It's interesting to know every input and output which was done.

Overview of the MASK Tool : Rangeland Management

Consumer Inventory

This first interface displays all the consumers in the shopping centre.

First, the user will have to select a person.

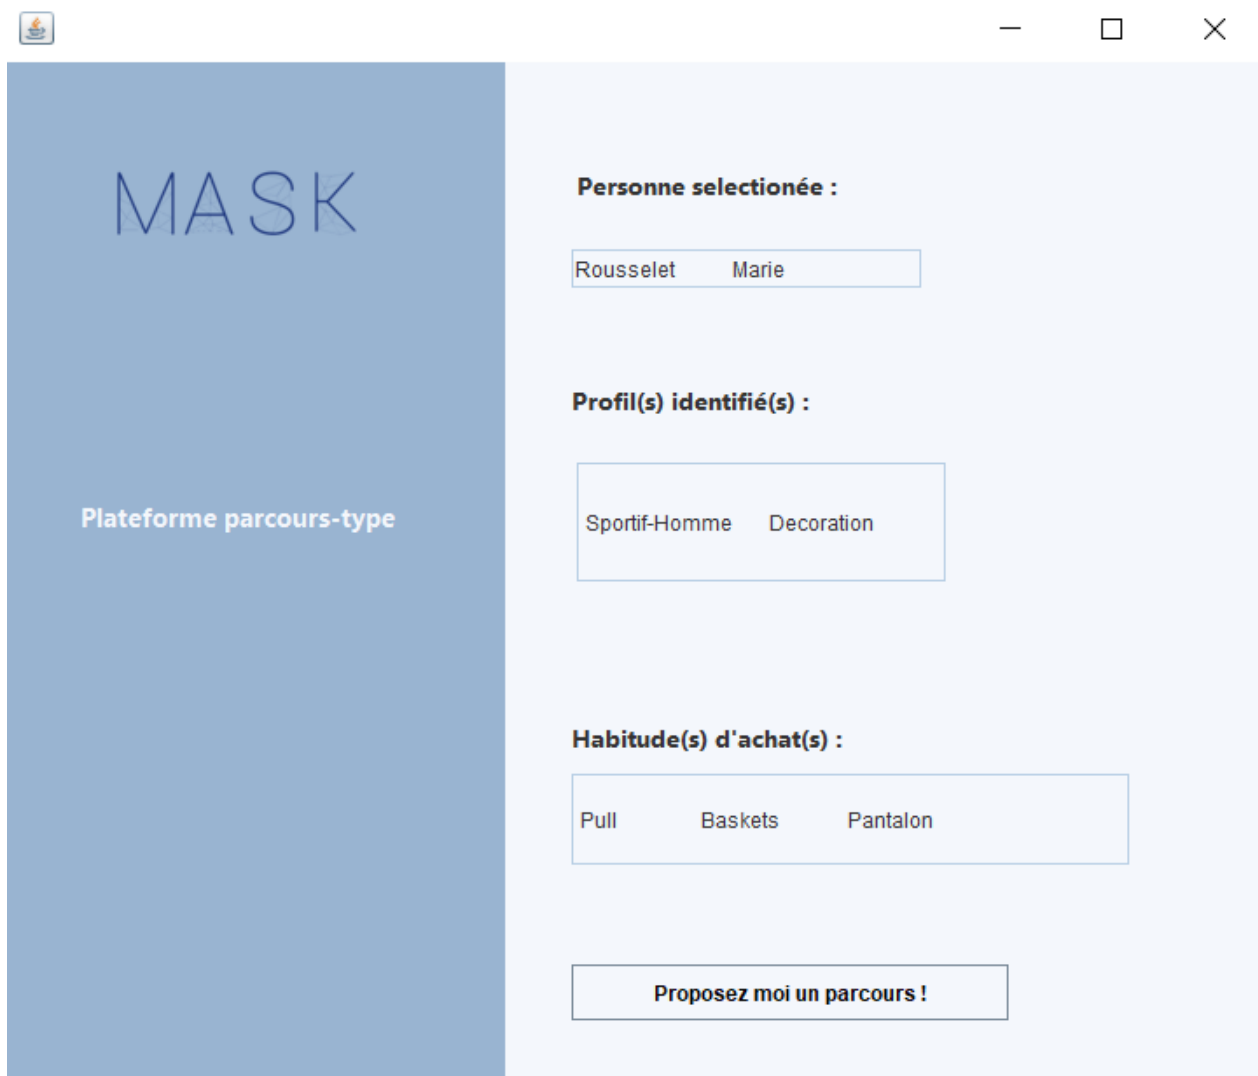

Consumer Information

The second interface is the one that concerns the consumer information that has been selected.

In this view, we can find information such as name, first name, type(s) of consumer profile as well as the purchasing habits of the person.

To be able to access a route the person will have to click on the button " Propose me a route ! "

The screenshot displays a web application window titled "MASK". The interface is divided into two main sections. On the left, a blue sidebar contains the text "MASK" and "Plateforme parcours-type". On the right, a light blue area displays consumer information. At the top right of the window are standard window controls: a minimize button, a maximize button, and a close button. The consumer information is organized into three sections, each with a title and a text input field. The first section, "Personne sélectionnée :", contains the text "Rousselet Marie". The second section, "Profil(s) identifié(s) :", contains the text "Sportif-Homme Decoration". The third section, "Habitue(s) d'achat(s) :", contains the text "Pull Baskets Pantalon". At the bottom of the right section is a button labeled "Proposez moi un parcours !".

Personne sélectionnée :

Rousselet Marie

Profil(s) identifié(s) :

Sportif-Homme Decoration

Habitue(s) d'achat(s) :

Pull Baskets Pantalon

Proposez moi un parcours !

Route Interface

After clicking on the button of the previous interface, a view is displayed with a store list according to the consumer profile(s).
